

Now included as a PlusPack in Fronter, Creaza™ represents a suite of multimedia tools, expanding the possibilities of creative collaboration online. Fully integrated within the Fronter platform, students and teachers have access to a range of cartoon creation, sound editing, film editing and mind mapping tools.

### With Creaza

**Multimedia tools** - Access a range of multimedia tools, all seamlessly integrated with your Fronter Platform.

**Project work** - Expand the possibilities for creative projects for students.

**Collaboration** - Share and discuss multimedia projects amongst students.

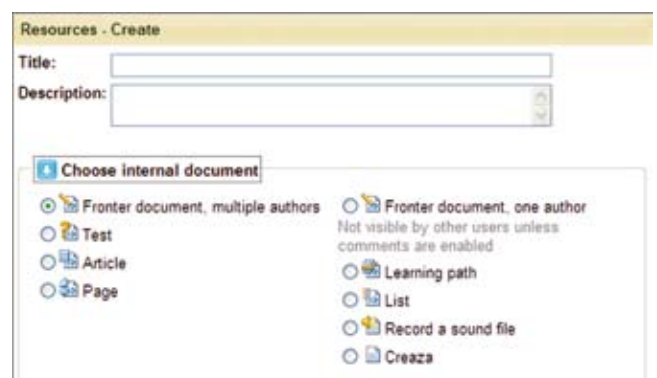

### How does Creaza work

**Fully integrated** - The Creaza pluspack is fully integrated with your Fronter platform, meaning that students can create and work on projects using the familiar Fronter tools and interface:

- Enter the Resources folder in your Fronter room
- Select 'Create' and choose 'Creaza'
- Complete your project within the Creaza interface and press 'Save'

**Saved work** - Links to all work will be automatically saved inside Fronter for easy access.

**Evaluation** - Creaza projects can be handed in as part of an assignment, evaluated and form part of a student's personal portfolio.

### Cartoonist

- Create cartoons based on a range of themes and backgrounds.
- Choose between different characters, props, and speech balloons.
- Present cartoons in web or print format.
- Use your own pictures in the cartoon tool.

### Movie Editor

- Create news clips, advertisements, film trailers, and short stories.
- Choose from already uploaded film and sound clips or upload your own.
- Import your cartoon to add voice-over.
- Synchronise video, image and sound along a timeline.

### Audio Editor

- Create news clips, radio advertisements, and short discussions.
- Distribute completed files as MP3.
- Sound editor follows set standards for sound editing.
- Record sound directly and add to edited files.

### Mindomo

- Create a visual mind map to organise thoughts, ideas, and links.
- Include sound, images and multimedia files in your mind map.
- Present mind maps in web or print format.
